

Urban Sketching to Travel Journal

KimPen Pang

Would you like to sketch urban scenes?

Would you like to find out where and how to start?

How to decide the best angle for beginning your work?

Sketching freely, quickly and often will heighten your skill in observation.

To observe, is to able to put down/evaluate the subject from eye to hands to paper.

Is perspective important for your work?

Drawing people? Yes, we will attempt drawing people in this course.

Combining objects/subjects to heighten your creativity.

You will be able to take this journey from urban sketching to recording your adventures with a travel journal of memories.
